MIRI: Members of Miri community visiting Naim Group of Companies 'Terrasse' show house gave their 'thumb-up' to the project.

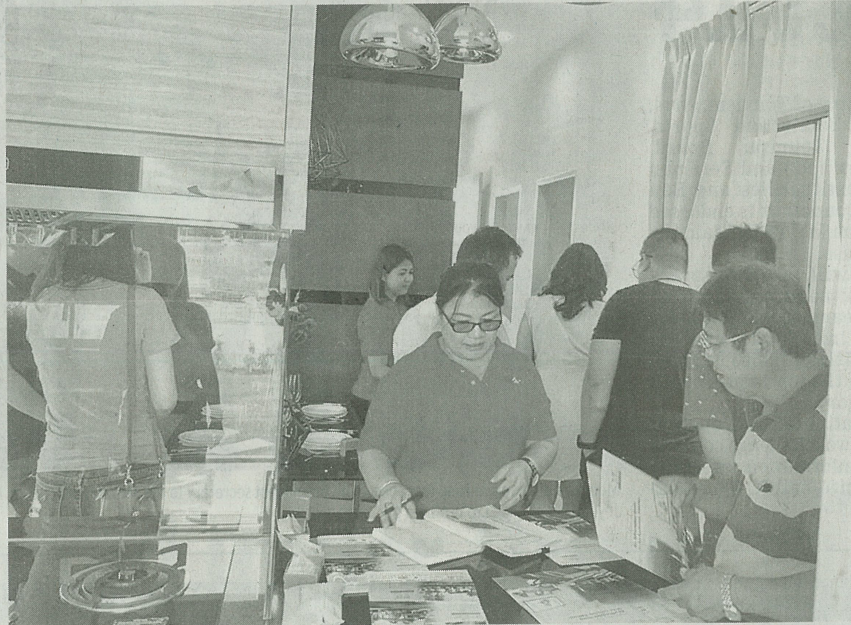

The single-storey terrace houses was launched at the Naim South Lake Permyjaya's Willow Moss Precinct in Miri recently in conjunction with the Hari Raya festival.

Naim's senior general manager for sales and marketing, Alice Ting thanked community members for their great support towards the housing project.

"The main pull factor for 'Terrasse' is that it provides a fusion of comfort and affordability. As these houses are located within our Naim South Lake Permyjaya lakeside development zone, residents are also able to enjoy unrivalled lakeside living experience, surrounded by beautiful and lush landscape, within a secured and guarded community. In addition to secured living, residents are able to enjoy a range of recreational facilities available at our Naim Clubhouse situated beside a beautiful lake. As such, we invite all to 'come home' to Naim South Lake Permyjaya," Ting remarked.

A visitor, Liew who viewed the show house was impressed with its design.

"The design and layout are very practical and comfortable. These, together with its strategic location near the Miri New-Bypass (Pan Borneo Highway), will indeed add value to my investment," Liew

Meanwhile another visitor Lee, who was also at the show house launch said the surrounding environment was an important factor when making purchases.

"Naim South Lake Permyjaya

offers a relaxing 'back to nature' feel, with its greenery, beautiful lake and clean air. All these, complemented by the facilities available at the clubhouse, reflect the real value of its properties," said Lee.
